

Pushing the boundaries

An unceasing drive for improvement

Established over 40 years ago, Sunseeker has built a reputation as the manufacturer of the world's finest luxury motoryachts – vessels that enjoy a unique combination of luxury and performance.

The yachts on display at this year's show boast all these qualities, with the added benefit of the very latest advances in design and innovation. They are proof of Sunseeker's persistent quest of excellence – and why Sunseeker now sets a global benchmark for luxury motoryachts.

Predator 54

The Predator 54's options start with a choice of open or hardtop – the former having fold-out bimini and tonneau covers, the latter an automated sliding roof between screen and rear section.

Life onboard is defined by a spacious cockpit plan with wetbar, dining area, sunpad and seating and, below, guest cabins, the master suite and twin and pullman cabins aft all enjoying their own flatscreen televisions and ample storage.

A genset is fitted as standard to run refrigeration and air-conditioning while at anchor. Nipping ashore is simple too.

Below: The Predator 54

choice of engines, there is also an option in drives. The more compact pod drive saves engine room space enabling an enlarged master suite. Luxury is extended by the saloon and three guest cabins, which all feature their own entertainment systems.

Predator 130

Created for those who relish the freedom of extended cruising, the Predator 130 offers unsurpassed luxury and strong blue-water credentials.

Ocean-going features include the latest navigation equipment and computerised engine management systems that provide constant fine-tuning, improving efficiency and performance.

The tender sits on a neat roller arrangement in the garage and an automated system makes light of launching and retrieving.

Predator 60

This 37-knot speedster is as much about performance as it is about comfort. A rakish hull belies the space onboard, where accommodation is optimised.

Both open and hardtop versions are available. And as well as a

Right: The 80 Yacht: the smallest to carry the Yacht title, but she enjoys the same attention to detail

“...Sunseeker has built a reputation as the manufacturer of the world's finest luxury motoryachts...”

Palatial in scale, the Predator 130 enjoys ultra-spacious accommodation and ingenious layouts, allowing a crew of up to eight to move freely but discretely.

Sunseeker 80 Yacht

The Sunseeker 80 Yacht is the smallest to carry the Yacht title, but she enjoys the same attention to detail and scope for

personalisation. Below deck for example, arrangements allow for three full beam double suites, or two doubles and two twin cabins.

With a cruising speed of 22 knots, range is around 350 nautical miles, but at full tilt the 80 Yacht will charge along at a vibration-free 30 knots.

The 80 Yacht is also made for more

sedate pleasures. A lazy lunch on the aft cockpit is perfectly complemented by an afternoon playing on the water toys easily launched from a submersible platform that doubles as toe-dipping beach.
