## RIGGING / LIGHTING / HANGING SIGNS

### RIGGING

JCALPRO is the exclusive provider of all truss and motors with regards to rigging (including overhead truss, goal post truss, lighting and cranked up truss)

- Exhibitors can bring PRE-APPROVED equipment.
- All exhibitors who plan to bring their own truss must supply JCALPRO with the certificates for that truss- ensuring structural integrity and that it is rated for what is being flown from it.
- If truss/equipment is approved, then all exhibitors will only need to hire (1) Rigger (with a 4 hour minimum) from JCALPRO to work alongside their team on the install and dismantle of the truss.
- Any clients using crank ups will need to utilize JCALPRO labor fully for the install and dismantle of the truss.

RIGGING LABOR RATES—4 hour minimum		
Mon-Sat 7am-12am	Sundays/Holidays 7am-5pm	Sundays after 5pm 12am-7am
<b>\$89</b>	<b>\$ 133.50</b>	<b>\$133.50</b>

### HANGING SIGNS

[CLICK HERE TO DOWNLOAD HANGING SIGN LAYOUT](#)

JCALPRO provides Labor to hang exhibitor signs only. All Signs need to be assembled prior to hanging.

Please Make Sure Your Diagram Includes:

- \* Booth orientation (surrounding booth numbers)
- \* Weight, dimensions, pick point locations, etc.
- \* Sign placement in the booth
- \* Power or lighting above the booth (if needed)

Exhibitors can request preferred up and down times. JCALPRO Will do their best to cater to the request but cannot guarantee it.

Due to the show load-out beginning on Sunday 2/17, and Monday (President's Day) is a holiday, any exhibitor who would like their sign taken down on Sunday or Monday, (1) Team Labor Hour needs to be ordered along with their rigging to cover the overtime labor costs.
