

Jackson Cruise 12 Angler

The Jackson Kayak Cruise 12 Angler, similar to its little brother the Cruise 10 Angler, fills a variety of niches. The 12 is better suited for anglers that want/need more speed and better tracking than the 10 ft. version can offer. It is also better suited for anglers that need a higher weight capacity than the 10. The Cruise 12 Angler is simply a great price point kayak for someone looking to get into kayak fishing without all the bells and whistles, but still wants enough features to make your time on the water enjoyable. It is also a great platform for an avid angler who is looking for a small versatile kayak with a minimalistic approach. The Cruise Angler 12 is perfect for fishing small to large rivers with small rapids but also tracks plenty well and carries enough speed for a jaunt on a bigger lake or inshore saltwater. With its stable platform, most also find it fairly easy to stand and fish in for those times when standing is necessary.

NRS Inflatable Sup

The NRS Thrive series disproves the theory that no single SUP board can do several things well. It's the perfect all-around shape for paddlers looking to mix it up with touring, fitness paddling, and light river running.

- Inflates up to a rock-hard 20 psi for performance that rivals a hard board, then folds up compactly when deflated for easy transport and storage.
- The Thrive SUP features our proprietary Axis Technology™. Axis, an acrylic stiffening agent integrated in the deck, improves stiffness and performance without adding weight or making the board harder to roll up.
- Removable, interchangeable fins let you customize your setup and the ABS plastic fins absorb impacts without breaking.
- Inflatable SUP boards add versatility to your adventures. So fold up the Thrive, toss it in your rig and fly, sail, or drive to your next paddling destination.
- With 370 liters of air volume, the 6-inch-thick Thrive 11' provides optimal performance and stability for paddlers up to 275 pounds.
- Double sidewall construction for increased durability and streamlined aesthetics. The heavy-duty PVC drop-stitch construction stands up to abrasion and abuse.
- Top-quality Leaffield D7 inflation/deflation valve for unsurpassed reliability.
- We added a sturdy webbing handle in the center of the board for easy carrying and two handles on the front to aid you during an unexpected swim.
- Hook the included shoulder strap to the two webbing loops on the board's sidewall to help carry your inflated SUP to the water over your shoulder.
- Six stainless D-rings give you plenty of options for attaching gear and a leash.
- Includes a high-pressure pump for easy inflation, a pressure gauge, travel pack and repair kit.
- Three-year retail warranty, three-year commercial.
